ŞEMSIYE VE GÖLGE SİSTEMLERİNDE 38 YILLIK TECRÜBE

MİRASIMIZ

Bazı şeyler vardır, kıymeti ancak yokluğunda anlaşılır, şemsiye gibi. Yağmurda ıslanmadan saklanacak bir kanat, güneşte kavrulmadan sığınacak bir gölge aklımıza gelmez. Derin bir muhabbettin daha başında, altında oturduğumuz şemsiyeyi unutuveririz. Güzel bir yemeğin tadına, püfür püfür bir gölgelikte daha fazla vardığımızı bile fark etmeyiz.

KONFORUN DEĞERİ

Bazı şeyler vardır, hayatın konforunu artırır. Farkına varıldıktan sonra ise vazgeçilmez olur. Biz de hayata konfor katmak için 1986 yılında Tekin Şemsiye ile yağmura siper olduk.

38 YEARS OF EXPERTISE IN UMBRELLA AND SHADE SYSTEMS

Our Heritage

Some things are only truly valued in their absence - like an umbrella. A protective wing from the rain, a refuge from the scorching sun - these are comforts we often take for granted. In the midst of deep conversation, we forget about the shade above us. Even while enjoying a fine meal, we rarely notice how much more pleasant it is in the cool shade.

The Value of Comfort

Certain elements enhance life's comfort. Once discovered, they become indispensable. This is the philosophy that drove us to establish Tekin Şemsiye in 1986, becoming a shield against the elements.

Our Growth

We continue to grow and evolve while maintaining our innovative perspective. Our achievements include:

- High product quality
- Short delivery times
- Pre and post-sales professional support
- Exports to 44 countries worldwide

Leadership Position

Today, we have reached the pinnacle in our field of operations. We continue to advance with a vision that can only be measured against our own standards by:

- Discovering and implementing new technologies
- Enhancing craftsmanship
- Setting industry benchmarks
- Maintaining unparalleled quality standards

Core Competencies

- Advanced manufacturing capabilities
- Innovative design solutions
- Quality control excellence
